

# ***Ex'd' enclosures***

## ***ZONE 1, 2 HOUSINGS FOR INSTRUMENTS AND SYSTEMS***

**Cast aluminium and stainless steel**

**Glass apertures**

**Glanded and with bespoke cable assemblies**

**Complete system enclosures**

Orange Instruments offer a bespoke design service for enclosures complying with ATEX Ex'd' explosion proof hazardous environment requirements, Zones 1 and 2.

Housings can be machined or cast, with or without viewing aperture, and can enclose complete control systems or single instruments. System builds can include cable assemblies, glanded with flying or terminated leads.
